1.2. What to do to participate?

Space can be booked by filling **the Online Application Form** available on the trade fair website <https://www.ifema.es/en/fruit-attraction/exhibitors>

This form will enable us to provide you with comprehensive information and make you a proposal for participation. You can check the booking and payment deadlines on the form itself and on the exhibitor calendar, which you will find in [section 1.10](#) of this guide.

The reservation fee may be used as compensation for expenses incurred in making the application and proposal and will be applied as part of the total payment for participation.

Exhibitors will participate in exhibition areas that are in line with the participating company's main activity and the products or services offered.

The surface area requested by individual companies must be a multiple of 4 and be between 16 sq.m and 128 sq.m (except in the Innova &Tech area, where you have the option of requesting space of 6 sq.m , 12 sq.m and from 16 sq.m).

Groups of individual companies is not permitted. Not applicable to grouped, associative or institutional participations.

In the event that the CONTRACTING COMPANY designates another entity as the BILLING COMPANY, the details of both must appear in the Application Form. **Changes in the billing company will not be authorized once the first invoice has been issued.**

Submission of the Application Form implies full acceptance of **the General Rules for Participation in Events Organised by IFEMA MADRID**, the technical annexes, the Specific Rules of this edition and the provisions that, of a generic or specific nature, are established by the organisation of the trade fair.

The exhibiting company is the company that will participate in the trade fair, in whose name the application for participation as an exhibitor is completed.

In order to apply to participate in the trade fair, it is a requirement that the exhibitor's activity, whether it is a company, public or private organization, is included within the sectors covered by the event.

By clicking the send request button, the exhibitor confirms to IFEMA MADRID that he or she is seriously interested in participating as such and in receiving a proposal.

It is possible to request information and quotes even if you haven't finished the process of the Application Form, which does not constitute a request for an offer.

APPLICATION FOR PARTICIPATION

Exhibitors from the previous edition (Fruit Attraction 2025) who submit their application to participate before 23 February 2026 will be able to renew their space and location, or request a change of location and/or surface area.

All applications received from companies that did not exhibit at the previous edition, as well as those received from 2025 exhibitors after 23 February 2026, will be dealt with in strict order of receipt.

1.3. Booking and allocation of spaces.

The decision to accept an exhibitor will be at the discretion of IFEMA Madrid, taking into account the purpose of the trade fair and the availability of spaces.

IFEMA Madrid will make one or more proposals for surface/location depending on the type of participation and/or type and size of stand requested. This proposal constitutes a contract offer. If the contractor accepts the offer/quote in writing/email/signature, they will be formalising the contract for participation in the trade fair, which constitutes a binding commitment that cannot be revoked by the applicant.

The space will be awarded after written acceptance by the exhibitor.

The exhibitor will receive the exhibition contract with the statement of accounts and a plan of the location and dimensions of his/her stand(s) and from that moment on will be able to access the customer portal EXPO ZONE to manage his/her participation.

To confirm your participation, **it is essential that you pay the first 50% upon receipt of the contract.** The remaining payments must be made within the deadlines established in the contract and statement of account.

(*) Companies established in Spanish territory (excluding the Canary Islands, Ceuta and Melilla): 10% VAT not included. For the rest of the companies, this operation is not subject to Spanish VAT. In the case of companies from the European Union, the exhibitor will be responsible for the VAT that, if applicable, is due in their country of establishment.

• **Grouped participations:** these are organisations, institutions or associations that request the total square metres for the participation of their represented companies, which will be the exhibitors at the trade fair. Once the square metres have been requested, if they need to reduce their participation, they will have until **1st April** to indicate this and may **not reduce more than 5%** of the total space requested. After this date, the management of the trade fair will not approve any reduction in space, so the grouped participation will assume the total cost of the entire space.

The space allocated to companies in a grouped participation may not be less than 12 sq.m

In the grouped participations of the Fresh Produce area, only companies from this area will be authorized to attend, whether they are direct exhibitors or co-exhibitors.

Grouped participations can be of two types:

- With companies registered as direct exhibitors and, therefore, with all the rights of an exhibitor.
- With companies registered as co-exhibitors (see point 2.3).

In the later case, those participants who have not registered their companies through the EXPO ZONE and the commercial management verifies during the trade fair that they are participating in their stand, they will be invoiced for to the main company.

Grouped participations may only opt for two payment methods:

1. The contracting and/or invoicing company only pays for the floor space + mandatory contracting services for all its related companies.
2. Each related company pays for its entire participation.

There cannot be more than one invoicing company per grouped participation.

Free design stands. Regulations and assembly

Companies opting for free construction of **their stands must upload their project to their EXPO ZONE** for approval before **August 30, 2026**.

If your project includes a rigging structure, you must complete the application form for hanging structures/rigging at IFEMA MADRID before August 30, 2026.

IMPORTANT NOTE: Projects with rigging included must have both projects approved in order to consider the final approval process completed.

Assembly rights

The company in charge of the assembly work of a stand must pay IFEMA MADRID, before starting such work, the assembly fees corresponding to the services rendered during the period of assembly and disassembly of the Fair. In the event that, as the exhibitor, you wish to assume the payment of these assembly fees and have them included in your invoice, you must contract them at the EXPO ZONE.

In order to be more efficient and provide a better service, avoiding incidents in the assemblies, IFEMA MADRID has begun to apply a **last minute surcharge to the hiring of assembly rights, as happens with the rest of our services.**

This **surcharge increases the price by 25%** when the contracting is made during the week prior (7 days before) to the start of the assembly, during the assembly, celebration and disassembly. **From 23 September 2026.**

We remind you that the assembly fees apply to free design assemblies and that they can be contracted with a **5% discount** if the contracting is made up to 30 days before the beginning of the assembly of the fair. **Deadline: 30 August 2026.**

To contract services, you must go through our online channel, which you can access from the following link: [Commerce](#).

SPECIFIC ASSEMBLY RULES FOR FREE-DESIGN STANDS

Height

- The maximum height of any element may be 4 m., always respecting the norm of blind enclosures in the perimeter environment.
- In order to raise or hang any element to a maximum height of 6 m, it is necessary to set back 1 m towards the interior around the perimeter.
- This possibility does not exist in the connection cores between pavilions, nor on the entrance sides of pavilions 9 and 10, where the maximum construction height of any element must be 4 m.
- In Halls 9 and 10 from the last truss of the hall to the cafeteria there is no possibility of rigging. In the middle of Hall 14 below the technical walkway, the maximum rigging height will be 5.5 m. (For more information, please contact sectecnica@ifema.es)

Occupation of space:

The construction elements, decoration and spotlights may not protrude more than 50 cm from the allotted space and from a minimum height of 2.5 m.

Blind perimeter walls in the perimeter environment

Blind perimeter enclosures may not exceed 50% of each corridor facade. For longer enclosures, they must be set back a minimum of 3 m inward and may not exceed 80% of the length of the facade.

Second floor

- The maximum height allowed for two-storey stands is 7 m in pavilions. These constructions are not allowed in the connection cores, nor on the sides of the pavilions.
- The second floor must be set back 1 m around the perimeter of the stand.
- A final certificate of revision and responsible declaration of supervision of structures included in the general rules of participation must be presented. The certificate or project must specify the dimensions, the load of use and the capacity, being the sole responsibility of the exhibitor the limits established therein.
- The interpretation and application of the regulations for each particular case is the responsibility of IFEMA MADRID, which reserves the right to make exceptions if deemed necessary, based on respect for the general perspective of the event and the visibility of neighboring stands.

NUMERATION: HIGHLIGHT

In order to make it easier for visitors to quickly and easily find where each exhibitor is located, it is mandatory to mark the space with the booth number, using a PVC: 35 cm (width) x 20 cm (height) with a white background and the number in bold letters, leaving a margin of 2.5 cm on each side. It must be placed on the floor near each aisle on the perimeter of the stand.

Perimeter carpeting

Any exhibitor who so wishes may install perimeter carpeting in his stand.

In the joints between stands belonging to the same group, they may be joined by carpeting and arch without signage (upon request for authorization fruitattraction@ifema.es). It is not allowed in center aisles.

REGULATIONS AND ASSEMBLY OF YOUR SPACE

Installation of recyclable carpet in common areas: in line with IFEMA MADRID's commitment to the 2030 SDGs (United Nations Sustainable Development Goals), as indicated in the [Guide to Sustainable Participation in Trade Fairs and Events](#), and with the aim of optimising the process of installing and removing recyclable exhibition carpeting for its subsequent reuse and consequent disposal of the protective plastic at source, the entry and exit times for goods must be adapted to these processes and will be reflected in the corresponding point. Thank you for your collaboration with our environmental commitment.

IFEMA MADRID covers the corridors throughout the trade fair and, for reasons of sustainability, does so with reusable strips of standard measurements, leaving a small strip free of carpet at the edge(s) of the corridor(s) that border the stands. Any exhibitor who wishes to do so may install perimeter carpeting at their stand, the cost of which will be borne by the exhibiting company.

FRUIT ATTRACTION

1.9. Specific rules for participation

The Organising Committee of FRUIT ATTRACTION may decide not to admit as exhibitors companies and grouped or institutional participations from third countries that have not signed or do not comply with the trade agreements in force signed between them and the EU.

Exhibitors will participate in exhibition areas that are in line with the participating company's main activity and the products or services offered.

The grouping of individual companies without any associative or corporate link is not permitted.

The decision to accept the exhibitor will be at the discretion of IFEMA Madrid, taking into account the purpose of the trade fair and the availability of spaces.

The minimum surface area to be rented is 16 sq.m.

The management of the event may alter the spaces assigned or make changes to the distribution of the halls for organizational reasons.

Without prejudice to the fact that the trade fair Management informs exhibitors in the event of a move or significant change to the reserved location, each exhibitor is obliged to inform themselves of the location of their stand, its exact dimensions, etc., the information of which will be available in the EXPO ZONE.

Occupation of the space will be authorized and the modular stand will be delivered to the exhibitor who has paid in full for the booked space and the costs of the requested services.

Access is not permitted to any exhibitor or visitor who cannot prove they belong to the participating professional groups, even if they have the corresponding pass or invitation.

The exhibitor is obliged to attend their stand and remain with the products on display throughout the entire period and opening hours of the event. **The event management may apply a financial penalty of €500 for failure to comply with the schedule.**

Direct sales of any type of items displayed at the trade fair are strictly prohibited.

The exhibitor authorizes IFEMA MADRID to reproduce, in whole or in part, the products displayed in its promotional material.

The exhibitor undertakes to comply with the rules and guidelines for environmental protection.

Activities that may disturb other exhibitors are prohibited and may not exceed 60 decibels.

Promotional activities, distribution and display of samples, brochures, leaflets and all kinds of promotional material will only be carried out within the space of each exhibitor.

Carrying out activities that require the hiring of a one-time catering service during the trade fair will require the completion of the "Communication for catering at stands" form available at ifema.es and which must be sent to: catering@ifema.es

Exhibitors are expressly prohibited from installing WIFI access points, whether for connection to the INTERNET or for the presentation of other functions. The aim of this measure is to avoid interference problems, both with the points that each Exhibitor may install independently, as well as with IFEMA MADRID's access points. Such interference could cause the WIFI networks present to not function. For more information, please consult article 33 of the General Rules for Participation in Events Organised by IFEMA MADRID

Water used for cooking, treating food or cleaning objects that come into direct contact with food must be obtained from adequately hygienic taps. It is prohibited to draw water from toilets.

The surveillance and security of the personal belongings of each stand is, therefore, the exclusive responsibility of each Exhibitor, before, during and after the celebration of the Event.

CHANGES IN PARTICIPATION

Once a space has been allocated to a company, if a change is requested in terms of the dimensions of the space, it may involve a change of location.

CANCELLATION

The exhibitor's withdrawal from participation in the Event shall be grounds for the termination of the contractual relationship between IFEMA MADRID and the Exhibitor for all purposes. The withdrawal must be communicated to the Event Management in writing and shall entail the loss of the amounts that the exhibitor should have paid on the date of communication, in accordance with the payment deadline schedule reflected in the Participation Application Form.

If the cancellation has been communicated to the Event Management within thirty days prior to the opening of the event, IFEMA MADRID may require full payment for the hired space.

In relation to the additional services offered by IFEMA MADRID that the exhibitor had hired prior to the communication of the cancellation, the cancellation charges established in article 7 of the General Rules for Participation in Events Organised by IFEMA MADRID will apply.

In the case of participation in exclusively virtual (online mode) through liveconnect, once the access to the platform has been sent, the exhibitor cannot withdraw.

In the event of cancellation of the trade fair due to force majeure, the amounts paid for concepts related to in-person participation will be refunded, according to article 15 of the General Rules for Participation in Events Organised by IFEMA MADRID

These Specific Rules, including the participation and assembly regulations of this chapter, are complemented by the **General Rules for Participation in Events Organised by IFEMA MADRID**, which all exhibitors, by the fact of being such, accept.
