1.9 Specific fair regulations

1.9 Specific fair regulations

General assembly regulations

All companies are obliged to assemble their stand, including at least the dividing walls with the pavilion wall and with the adjacent stands, depending on their location.

For **safety** reasons, and as a general and permanent preventive measure due to the concurrence of activities, **it is mandatory to wear a protective helmet, high visibility vest and safety footwear during the assembly and disassembly phases of fairs and events in all exhibition areas.**

During assembly, it is not necessary to carry badges; therefore, there are no assembler's badges.

No assembly work may begin without the prior completion and submission to IFEMA of the Protocol "[Prevention of Occupational Risks and Coordination of Business Activities](#)" available on the website of IFEMA MADRID ifema.es -Exhibitors -Participation Rules -Forms (Article 15 of the general rules for participation in fairs organized by IFEMA MADRID. available at IFEMA MADRID ifema.es website ifema.es -Exhibitors -Participation Rules -Forms (Article 15 of the general rules for participation in fairs organized by IFEMA MADRID. available at IFEMA MADRID website.

Regulations for the circulation and parking of vehicles during the event: inside the fairgrounds it is expressly forbidden to keep vehicles parked in the loading and unloading areas, so that they may only be parked in the areas designated for this purpose, paying the corresponding fee, if applicable. Once the event has opened, it is not allowed to circulate with any vehicle inside the halls and the avenue, unless expressly authorized by IFEMA MADRID (article 14 of the general provisions of the General Rules of Participation of IFEMA MADRID).

Installation of recyclable carpeting in common areas: in line with IFEMA MADRID's commitment to the 2030 SDGs (United Nations Sustainable Development Goals), as indicated in the [Guide for Sustainable Participation in Fairs and Events](#), and with the aim of optimizing the process of installation and removal of recyclable fair carpeting for subsequent reuse and consequent elimination of the protective plastic at source, the schedules of entry and exit of goods must be adapted to these processes and will be reflected in the corresponding point. Thank you for your collaboration with our environmental commitment.

IFEMA MADRID carpets the aisles throughout the fair and, for reasons of sustainability, does so with reusable strips of standard sizes and, as a result, leaving a small strip of carpet free on the edges of the aisle/s that border the stands. These non-carpeted strips are part of the aisle and not of the **stands and therefore the exhibitor is not authorized to cover or decorate them.** We request the exhibitor's cooperation in respecting this decision; IFEMA MADRID staff will monitor compliance as far as possible, and will demand the removal of any carpeting that invades these strips and, if, despite the controls, the strip is invaded, **the invaded aisle space will be invoiced to the exhibitor as space.**

Management of waste and assembly and exhibition materials: all companies participating in the assembly and dismantling of stands at the fair/event must manage, as directly responsible, the waste they generate for their removal within the deadlines. IFEMA MADRID will make available the possibility of hiring containers to facilitate the selection and removal of waste and will supervise the same (see rates in Customer Portal [Expo Zone](#) , in Contracting Services, section on cleaning and waste containers).

The exhibitor shall lose any right to claim for loss or damage to materials still remaining in the exhibition areas of the pavilion after the deadline and shall bear the costs related to their removal, which will be invoiced by IFEMA MADRID in accordance with the established rates (see art. 35 of the general regulations for exhibitors' participation in events organized by IFEMA MADRID).

3. PROMOTE AND MONETISE YOUR PARTICIPATION

SMARTDOORS

3.1 Exhibitor catalogue/liveconnect

The fair's catalogue, or list of exhibiting and co-exhibiting companies, is an essential tool for promotion and networking. It provides visitors and other exhibitors with the basic information needed to prepare for the fair and helps them find and contact you before, during, and after the event.

- Enter and update your contact details, the products or services presented, and any relevant information to give your company maximum visibility and ensure you get the most return from your participation.
- All the digital environment and communication for your participation is channeled through liveconnect.
- Make the most of the platform offered by IFEMA to promote your participation, schedule appointments, showcase your products, and connect with your target audience.

3.2. Invitations for your clients and contacts

IFEMA provides you with access invitations to the fair to efficiently promote your participation. Don't miss out on this useful tool, which is available to you in your **Expo Zone**.

3.3. Networking

Enhance your contact list

Liveconnect gives you the opportunity to search for contacts among its participants. You can use filters such as country, activity, job title, products of interest, etc., to perform searches. Once you've identified potential clients, you can chat with them, request contact details (such as email and phone number), or invite them to a meeting at the fair.

Be proactive and take advantage of this opportunity to build a valuable contact list.

Meeting requests can be directed to the company in general or to a specific team member. This way, the entire team can plan their meeting schedule at the fair in advance

3.4 Outdoor advertising

We offer you a wide range of strategically placed advertising spaces, ensuring maximum visibility for visitors and exhibitors attending the fairgrounds.

You can explore these options on the fair's website in the exhibitor area under "advertising services and promotional elements," or by sending an email to publicidad@ifema.es or by calling (+34) 91 722 53 08 / 40.

Carpet recycling:

IFEMA MADRID recycles 100% of the carpeting used in aisles and communal areas. Furthermore, means that it has to be laid in strips instead of covering the entire surface area as was previously the case. This means we can guarantee its conversion into a new raw material for the subsequent manufacture of other products.
